NEW YORK STATE  
COUNTY HIGHWAY  
SUPERINTENDENTS  
ASSOCIATION, INC.

## Who We Are

In 1909, a group of County Highway Superintendents met in Saratoga Springs, New York. Their intent: to form a close-knit organization that would support and inform its members and help them to do their jobs in a more efficient manner.

For over 90 years, members of the New York State County Highway Superintendents Association (NYSCHSA) have gathered together to share their knowledge, experience, and each other's company. A non-profit organization, the Association promotes the construction and maintenance of a safe and modern system of county roads and other allied transportation infrastructure maintained by county government. It's an important mission: there are more than 20,400 miles of county highways and over 9,000 local bridges in New York State.

Today, the Association continues in its important work with 57 of the state's county commissioners of public works and highway superintendents, and over 125 industry members, actively involved.

## What We Do

The Association is the only organization in New York State dedicated to meeting the needs of County Highway Superintendents and Commissioners of Public Works. To meet the goals of supporting its members' professional development and representing the entire membership, the Association:

- Provides opportunities for Association members to meet and share information.
- Sponsors and promotes the transfer of the latest technology and information regarding transportation and public works in New York State.
- Provides information — on such topics as legal issues, new maintenance and construction methods, and management skills — that aids members in the operation of their departments.
- Informs the State Legislature of County positions on proposed legislation involving highways and public works and proposes legislation which is in the best interest of communities throughout New York State.
- Over the years, the Association has established positive working relationships with the Governor's Office, both houses of the State Legislature and the New York Department of Transportation. In addition, the Association continues to educate state representatives of the importance of state highway and bridge aid to local governments. For example, the Association has been instrumental in promoting the safety and economic benefits of the Consolidated Highway Improvement Program, which has provided hundreds of millions of dollars to more than 1,600 local governments in New York State.

## How You Benefit

Above all else, membership in the New York State County Highway Superintendents Association is your link to your colleagues throughout the state.

- Through membership, tapping the expertise of fellow members is just a phone call away. As a member, you will be given the Association's annual yearbook, which contains a complete directory of County Highway Superintendents, Commissioners of Public Works and industry representatives, as well as a wealth of other useful information.
- Though membership, you can grow professionally by exchanging ideas with your fellow members and transportation industry experts at the Association's Winter and Summer Conferences.
- You will also receive mailings and faxes on timely issues and events, legislative updates, conference announcements and access to Association representatives in Albany.
- Membership will help you stay on top of the latest technology to do your job more efficiently. The Association's Winter Conference is accompanied by an industry trade show where the latest developments in transportation and public works products are showcased.
- Membership in NYSCHSA gives a powerful boost to your influence in New York State government. Instead of just one individual's voice, the Association speaks with the authority of all the state's County Highway Superintendents and Commissioners of Public Works to inform decision makers at all levels what's best for the county infrastructure of New York State.
- By becoming a member, you help yourself and the County or company you serve. Complete and return the attached membership application today!

### Categories of Membership

#### REGULAR MEMBERSHIP

Open to any in-office County Highway Superintendent or Commissioner of Public Works in New York State. Regular members have full voting privileges. Annual dues are \$250 for regular members.

#### AFFILIATE MEMBERSHIP

Open to engineering consultants, other municipal organizations, vendors supplying materials or services for highway or other public works projects and other vendors as approved by the Executive Committee. Affiliate membership may be on an individual or corporate basis. A corporation, company or firm shall designate one person to represent the organization in meetings or other mutual activities with the Association. Affiliate members have no voting privileges. Annual dues are \$275 for affiliate members.
